Report of the Board of Selectmen

The Board organized for the year with George B. Cheney, Chairman, Peter F. Warakowski, Clerk and John D. Aldrich, third member.

All highway projects voted at the annual and special meetings were carried through to completion with the exception of the Park and Thorndike Street sewers in Palmer and the Church Street sewer in Thorndike. These projects will be completed in the early spring.

In March the Board negotiated with the Turnpike Authority and accepted their best offer of \$25,000 for the taking of approximately 14 acres of Burleigh Park for turnpike purposes. The town was reimbursed \$17,000 from the State and County as their contributions to the costs of Chapter 90 Maintenance Construction. Claims for \$35,000 for flood repairs have been submitted to the Flood Relief Board and to date the town has been reimbursed in the amount of \$11,000.

Further reimbursements will continue to be made periodically as the claims are audited in Boston. A survey of flood conditions and causes in Three Rivers was made and recommendations made to all interested parties but the Board has not as yet received any definite word from the Flood Relief Board as to their decision.

The Board wishes to thank all town departments for cooperation during the year.

Respectfully submitted,

GEORGE B. CHENEY

PETER F. WARAKOMSKI

JOHN D. ALDRICH

1956 Town Clerk's Report

VITAL STATISTICS

The attention of parents and others is called to the following Vital Statistics. It is important that the records should be correct. If any errors or omissions are discovered, the Town Clerk will deem it a favor to have the same reported to him at once, and he will make the corrections in accordance with the law. Parents should also know that a proper return of birth is made as it may be of great importance in after life.

Respectfully Submitted,

Board of License Commissioners

JOSEPH J. PAPUZENSKI, Clerk

Report of Chief of Police

To the Honorable Board of Selectmen

Palmer, Massachusetts.

Gentlemen:

The annual report for the police department for the year ending December 31, 1956 is submitted for your consideration.

During the year, 423 complaints were presecuted in the District Court of Eastern Hampden against 332 males and 15 females. Twelve delinquent complaints were issued against juveniles. Motor patrols covered 39,744 miles. Twelve stolen automobiles were recovered, 259 summonses served for other departments, and three fugitives taken into custody.

Three persons were killed in automobile accidents and sixty-two persons suffered personal injuries despite a continual safety program and a strict enforcement policy. One fatal accident occurred at the Four Corners intersection, and a traffic survey is presently being conducted in that area with a view to eliminating any existing hazard.

Palmer was honored by a Special Citation from the American Automobile Association for excellence in a Pedestrian Protection Program sponsored during the past year.

Patrolman Frank M. Doyle retired during the year after serving faithfully for thirty-nine years. Officer Doyle was a dependable officer who efficiently performed his duties.

William E. Reynolds was appointed a patrolman to fill the vacancy caused by the resignation of Theodore A. Zebrowski.

During 1957 the east-west toll road will open for traffic. Palmer finds itself in the unique position of having an important interchange located on busy Route 32 (Thorndike Street) so traffic will necessarily increase considerably. Within the past few years, what were formerly outlying districts have now become thickly settled residential areas demanding increased police protection. Therefore, I recommend four patrolmen be added to our present force and an additional cruiser be purchased.

I wish to thank the officers for attentiveness to the duties assigned to them and for carrying out assignments in a creditable manner.

To your Honorable Board I wish to express my deep appreciation for your kindnesses to me as well as the splendid cooperation extended to me. No police official can expect greater assistance than that afforded me, and I am grateful for it.

Respectfully yours,

JAMES F. DONAHUE

Chief of Police

Report of Moth Department

Amount Appropriated	\$1,800.00	
Expenditures	\$1,616.50	
Balance		\$183.50
Honorable Board of Selectmen		

Gentlemen:

The past year found the Town free from Gypsy Moth infestations, however spraying was continued as a precautionary measure. Scouting throughout the Town shows the pest is well under control.

The program for Fly and Mosquito Control was carried out with excellent results noted after spraying.

This department handled several requests for eradication of Poison Ivy and Dogwood Poison.

The recent 25 Degree below zero weather will have a killing effect on exposed dormant Gypsy Moth and Birch Leaf Miner Eggs. This sub zero weather causes these eggs to burst, eliminating their hatching.

It is expected that the Birch Tree, which suffered severe damage in the past few years, will benefit greatly from this extreme cold as the larvae will not damage the foliage in the summer.

DUTCH ELM DISEASE

Appropriation and Transfer	\$5,064.75	
Expenditures	\$5,056.94	
Balance		\$7.81

The Dutch Elm disease still continues to leave its deadly effects. During the past year, 62 diseased Elm trees were cut down and disposed of. This year's examination shows an additional 51 trees diseased.

To fight the Elm Tree Beetle, the carrier of the disease, two sprayings of DDT and Malthion were made throughout the Town.

It has been unofficially reported that the Beetle is becoming

immune to DDT. If official reports reach this department to that effect, future spraying will be made using a new chemical preparation called Deldrin, a replacement for DDT.

As in the past, continued efforts will be made to combat this disease by this department.

Respectfully submitted,

STANLEY J. STRZEMIENSKI

Moth Superintendent

Report of Park Commissioners

To the Selectmen and Citizens of Palmer:

The various park and playground areas of the town have continued to be utilized by our townspeople of all ages, and while no detailed record of attendance is kept, it is apparent that the numbers are constantly increasing. The present equipment is being kept in good repair and new material added as necessary. Additional playground equipment has been supplied wherever needed, and all four villages now have well established recreational areas for their young people.

After considerable delay a suitable boulder has been placed at Endelson Playground at Bondsville and a memorial plaque properly mounted on it. Dedictory services will be held there when the weather is suitable.

The park property has been well maintained throughout the year, thanks to our capable caretaker and his assistants.

BOARD OF HEALTH

Report of Inspector of Animals

Palmer, Mass.

December 31, 1956

To the Honorable Board of Selectmen

Town of Palmer

Gentlemen:

All inspections ordered by the Division of Livestock Disease Control have been completed and requirements of Section 19, Chapter 129, of the General Laws of Massachusetts have been complied with, and reports filed with the Director at 41 Tremont St., Boston.

There were 64 visits made to examine and quarantine dogs known to have bitten persons. None showed symptoms of Rabies and were released after 14 days.

Brucellosis (Bangs Disease)—This is a new order which makes considerable extra work as some farms have to be checked 3 or more times for cleaning and disinfection. All bovine animals in the Town must have a agglutination blood test before December 31, 1956.

Respectfully submitted,

GEORGE S. GAY

Inspector of Animals

Veteran's Service Center

To the Honorable Board of Selectmen
Town of Palmer, Massachusetts

Gentlemen:

During the past year thirty-six servicemen reported being discharged or separated from the armed forces, bringing the total veteran population of the town to 2,148. Death claimed five of our veterans; three with WW I and two with WW II service. Effective January 1, 1957 the whole structure of future benefit payments to survivors and dependents of servicemen has been revised under a new act called Public Law 881. No distinction will hereafter be made as to peacetime or wartime service and benefits will be based entirely on rank and length of service.

Information, advice and assistance relating to various types of veterans' benefits was furnished to 1141 individuals through personal contact. Eleven claims for compensation or pension were filed through the Center and nine awards were made by the Veterans Administration representing an income to these recipients of about \$7,500 annually. One claim was denied and one claim is pending final determination. Other essential services to veterans were as follows:

637	Photostats
77	Insurance
51	Bonus applications
52	Loan Certificate applications
53	Disability requests
36	Discharges recorded
35	Hospital & Out Patient requests
33	Education applications
79	Referrals to other agencies
105	Letters for veterans
381	Miscellaneous services

Under provisions of Chap. 115 G.L. Mass., as amended, 44 cases involving a total of 134 persons were granted aid during the year.

Appropriation		\$22,000.00
State reimbursements received	\$ 8,181.29	
Town's share of cost	12,555.51	
Balance unexpended	1,263.20	
	<hr/>	22,000.00

Report of Forest Fire Warden

Report of the Forest Warden for the Year ending December 31, 1956:

To the Board of Selectmen

Town of Palmer, Massachusetts

Gentlemen:

I herewith submit my final report as Forest Warden of the Town of Palmer for the year ending December 31, 1956.

This department responded to a total of 16 calls this past year, for grass and brush fires throughout the town.

Again I must report that the two-way radio on the Forest Fire Truck is in inoperative condition and is obsolete. Again I must report that this radio is way over age and should be replaced with a modern radio to facilitate the operation of this department. At present it is inoperative and must remain so until the Town appropriates sufficient funds to replace this very much needed equipment.

I would like to thank your honorable board for the cooperation you have given me in the years that I have served as Forest Warden and hope that you will give your support to the successor in this department.

Respectfully submitted,

VICTOR M. FRENCH

The steady increase in the use of our Library facilities has continued throughout the past year, both at the reading rooms and over the book counters. We now have 3042 holders of Library cards, a gain of 118 over the figures for a year ago. Use of our encyclopedias and reference works has also shown an increase, not only by high school and college students, but by many others as well.

The practice of discarding obsolete and worn-out volumes to make room for new and up-to-date materials has been continued and besides the normal increase in new books, we have repaired or rebound more than 1600.

The Thorndike Branch has been reopened at Tyburski's Dairy Bar, which is proving to be a very satisfactory location.

Last Spring the Library again conducted an Art Show, when 51 local artists exhibited their work. The exhibition was very successful and produced much favorable comment. The detail work connected with the Show was undertaken by a committee of local people, to all of whom the Library Trustees express their thanks.

The Branch Registry of Motor Vehicles, established at the Library in December through the cooperation of the Selectmen,

the Massachusetts Registry of Motor Vehicles and the Library Trustees, was of great service to many of our townspeople, more than 4,300 sets of plates being issued here during that month. It may well be that this record will have an important bearing on Palmer's getting a permanent Registry Branch.

Townspeople are again urged to request any book they wish to read. If we do not have a copy, we can arrange either to get it from a larger library or will purchase it if there is sufficient demand for it. We can also arrange for the loan of books in foreign languages.

Report of the Tree Warden for 1956

Amount appropriated	\$2,575.00
Amount spent	2,561.52
Amount flood refund	13.48

The Tree Warden's Department had its usual busy year in 1956. Road construction, home building, new sidewalks and various other projects necessitated the removal of trees along the town's roads.

The department took down 27 trees that were decayed or dangerous to the public safety; trimmed dead wood from 57 trees; and removed overhanging branches from house roofs, chimneys, television antennae and roads.

Damage in two electric storms in July and August and from three wind storms in the fall months brought about the necessity of more tree-trimming and removal.

Thirty maple trees were planted in 1956 along the streets of the villages where trees had previously been removed. The Dutch Elm disease is still prevalent in this area, and much has been done to counteract this hazard. Fourteen maple trees were blighted last year, and the department hopes this will not occur in 1957.

Prospects for 1957 include more planting along with the usual duties performed by the department.

The tree department wishes to express its thanks to the town highway department and the Worcester County Electric Company for help and cooperation during the many storms of the past year.

It is the belief of the Tree Department that a tree planting program should be continued to enhance the beauty of the town's streets.

Annual School Report

To the School Committee of the Town of Palmer:

I submit herewith my sixth annual report, the sixty-fourth report of the town.

Repairs

This year boys' toilets in the Thorndike and Park Street Schools were renovated. Classrooms in Three Rivers were painted; and exterior painting was done in Bondsville, Thorndike, and Three Rivers.

A new roof was installed at the High School.

In the future, toilet renovations should be completed; and it is hoped that, over the next three years, a program of conversion from coal to oil will be carried out at Three Rivers, Quabaug, Thorndike, and the High School.

Improved lighting in the High School should be a project for consideration, also.

Cafeteria

The cafeteria program was completely reorganized. Currently all food is prepared in a central kitchen in the High School. Food is transported to the Quabaug School in vacuum containers. This plan has worked well in the main, and it will enable us to serve meals in other buildings if it becomes necessary without the need of large sums of money to create new cafeterias in other schools.

The reorganization has enabled us to provide a standard menu, central preparation, central purchasing, and central book-keeping with a smaller staff than formerly. It has made it possible to purchase badly needed new equipment from program receipts. At this writing, approximately 300 meals are served daily. The meal consists of a main dish, milk, and dessert for 25 cents daily.

Enrollments

Enrollments continue to climb; and the increase is now moving into the upper elementary grades at Park, Quabaug, and the High School.

One sixth-grade classroom from Park will need to be accommodated at Thorndike Street next fall, and the last vacant room at Quabaug will be in use next September. The adult education room upstairs at Thorndike Street will be moved to one of the village schools, and this room will be equipped and opened for a high school homeroom. It is quite possible that the art room will be used for homeroom purposes, also.

Guidance

It is our hope that next fall a full-time guidance director will be appointed for the High School. The increase in enrollment at the High School makes this position a necessity. In the main, the duties of such a person would consist of conferences with students to assist them in proper course selections, vocational employment assistance, college selections, college entrance examination scheduling, the administration of aptitude and adjustment tests, liaison between the school and colleges, conferences with parents, and coordinator of a general guidance plan for the staff.

High School Building Needs

It is anticipated that the High School enrollments will reach between 600 and 700 pupils in a building that can accommodate 385. At the moment, we are using rooms at Thorndike Street to accommodate approximately 500. The fact that we now use two buildings indicates that we need more space. Using two buildings is a temporary expedient and does not solve a problem that will be with us for many years to come. We need more space for two reasons: 1) to accommodate more pupils; 2) to improve the educational program.

The Building Survey Committee is studying these needs at the moment. The decision as to the most practical solution will come only after a careful study of the facts.

Modernization of our science laboratories, home economics and commercial rooms; and an expansion of our shop program are desirable as well as a new cafeteria, library, and gymnasium.

Budget

The School Department budget was approved by the School Committee for 1957 at \$444,198.00, an increase over last year of \$36,200.00. In the main, increases in salary for personnel and transportation account for the increase over last year. Paper supplies and books have increased at least three times the past year. Unless prices level off in the next year, further increases in textbooks and supplies will be necessary. It is estimated that outfitting a pupil with a new set of books today represents an average outlay of \$25 per pupil.

Recently the executive secretary of the Massachusetts Taxpayers' Association stated that all school budgets are higher, but that "schools do not receive any greater percentage of the total municipal or town budget today than during the depression." This statement prompted me to do a bit of research to see whether this was true in Palmer, and the following figures bear out the words of this official:

Year	Total Town Appropriation	School Appropriation	Percentage
	All Departments	Only	
1936	\$346,646 32	\$156,000.00	45%
1937	400,352.86	164,423.02	41%
1938	389,204.64	159,740.74	41%
1939	379,006.88	156,950.00	42%
1940	396,039 39	150,587.18	38%
1955	845,167.00	377,508.00	45%

These figures indicate that, even with a maintenance increase of \$28,000 carried in our budget the last three years, as recommended by a survey committee for major renovations and improvements, the School Department does not receive a greater part of the entire town appropriation now than in 1936.

A new salary schedule was adopted as follows, effective January 1, 1957, and the salary increment was increased from \$150 to \$200:

	No Degree	Bachelor's Degree	Master's Degree
Minimum		\$3,400	\$3,600
Maximum	\$4,800	\$5,000	\$5,200

Conclusion

In conclusion, may I take the opportunity to express my sincere appreciation to the members of the School Committee, the Board of Selectmen, the Highway Department, the Police Department, all other town officers, a loyal and helpful staff, Parent-Teacher Associations, cooperative parents and friends, businessmen, community organizations, and all others who have given the School Department their whole-hearted support in its objective to provide a successful school program for your children.

Respectfully submitted,
